Placement & Training

Placement configures and important part in the Health and social care Management degree. Our partnerships with a range of organisations and hospitals assure graduates to boost their employability.

Why do we do placement in the Health and Social care course?

Our placement can offer an insight into the diverse careers available within th health and social care organisations and providing a valuable career development opportunity.

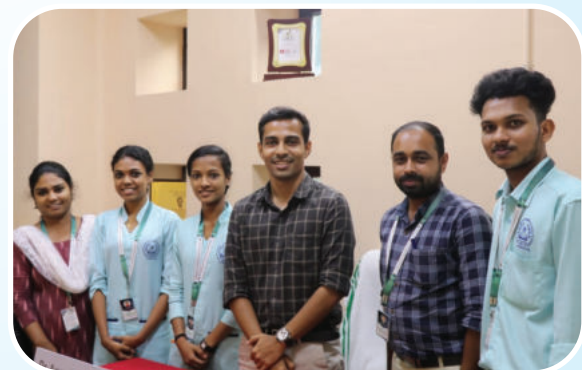

What will we do on placement?

Our placements clarify graduates' interests and helps to achieve the career goals. On the completion of first year, students will get an idea about where to work and where, not to work in the placement programme.

How our placement assessed?

Students must prepare a Resume during your placements in the second or third yer. Which include self-reflection and will helps to become a more proficient practitioner. Also produce material for the organizations where you are on placed. These could include, health promotional leaflets, reports or strategies.
